# **Simplify a Fraction Song**

By Tim Pacific

Find a common factor  
of the numerator and denominator  
A common factor is number that will  
Divide into both numbers evenly.

2 is a common factor of 4 and 14  
Divide both the numerator and denominator  
by the common factor.

Repeat this process until there are no more common factors.

The fraction is simplified  
when no more common factors exist.

Repeat
